## ROMY L-Series Dust bag set, 6 pcs

252730

For our ROMY L6 Animal we have a giant dust bag with self-sealing mechanism. This system allows hygienic removal without loss of dust. The fine-meshed filter textile has a volume of 1.1 liters. The dust bag can therefore be used for up to 3 weeks without any problems and without having to be changed.

### PRODUCT DETAILS

Huge dust bag with a self-closing mechanism for hygienic removal without loss of dust. The fine-meshed filter textile unfolds to its full size in the robot and has a volume of 1.1 liters. The disposable bag can therefore be used for up to 3 weeks without having to be changed. The dust bags can simply be installed instead of the dust container. The disposable bags reduce the maintenance of the product as they are simply disposed of with the dust. This is especially useful in operational environments where a lot of hair is picked up by the robot because hair can quickly become knotted into bundles, making any maintenance work difficult.

Works with:

- ROMY L6 Animal
