ROMY L-Series Filter set, 2 pcs

252731

HEPA-filter for dustbins, made for an easy exchange. The particle filters separate fine particles such as bacteria, pollen, viruses, and fine dust. Due to their high degree of filtering, HEPA filters are very suitable for people with allergies.

PRODUCT DETAILS

HEPA (High Efficient Particulate Air) filter for the dust bins. The particle filters separate fine particles such as bacteria, pollen, viruses, and fine dust. Due to their high degree of filtering, HEPA filters are very suitable for people with allergies. A simple clip connection allows easy filter replacement. As part of filter maintenance at home, when emptying the dust bin, the filter can be tapped out and even cleaned with water. It is recommended to change the filter regularly, as even after maintenance, there is no guarantee that all fine particles have been removed.

Works with:

- ROMY L6 Animal
- ROMY L6 Performance
