ROMY L6 Performance Black

252218

The ROMY L6 Performance is a powerful and efficient robot vacuum cleaner suitable for large households with its 5200 Pa suction power, 200-minute run time, and 960 ml dust bin. It features a lamellar and bristle combination brush, a spot cleaning function, scheduled cleaning, and a smart navigation with built-in laser. The robot has five suction power levels and is one of the most quiet robots in its class. It can climb up to 2 cm and is only 8.6 cm high, making it suitable for hard-to-reach areas.

PRODUCT DETAILS

Powerful cleaning for large households

With its 5200 Pa suction power, the excellent cleaning performance and 200 minutes run time, ROMY L6 Performance is an ideal support for big households. Whether tiles, wooden floors or carpets - your ROMY does the job.

960 ml dust bin for greater autonomy

Romy L6 Performance has one of the largest dust bins on the market. This means, you don't have to worry about cleaning for up to 3 weeks!

Lamellar and bristle combination brush

The perfect combination of super suction power, lamellar and bristle combination brush, the large dust bin and a fine particle filter help you to keep your home hygienically clean.

Cleaning tool

Particularly long hair or fibers can easily be removed from the brush with the cleaning tool.

Spot on

Use the spot cleaning function to send ROMY exactly where you want him to clean. Is there chaos on the carpet after a movie night? Let ROMY vacuum with pinpoint accuracy.

ROMY L6 does not need a large station

No space for a large cleaning station? ROMY L6 Performance has one of the biggest dust bins on the market. With its 960 ml capacity and 250 ml water tank, the L6 offers the benefits of an autonomous cleaning system without the high cost and space requirements of an auto-empty station. Don't worry

about cleaning for up to 3 weeks!

Strong against dirt

With its 5200 Pa b suction power and 200 min running time, ROMY L6 is the ideal support for households in which there is a lot to do. Does not matter if tiles, wooden floors or carpets.

Silent mode

Despite its intense suction power, ROMY L6 is one of the most quiet robots in its class. 5 suction power levels are possible: Auto, Eco, Min, Med and Max. For instance, in the Eco or Min mode, ROMY is particularly quiet.

The built-in laser makes ROMY super slim

ROMY L6 is one of the slimmest laser robots on the market. Instead of a dome on the top, we built the LIDAR front laser into the casing. As a result, ROMY L6 is only 8.6 cm high and can clean in hard-to-reach places, under cupboards or the couch. No more bending down while vacuuming!

Smart navigation

With its intelligent LIDAR front laser navigation, your robot reacts immediately to obstacles and changes in its environment. As a result, he rarely bumps into anything, always knows where he is and finds his way back to the charging station when his work is done. After a first short exploration run, your ROMY is immediately ready for use

Autonomous and smart

If ROMY runs out of battery during a cleaning session, it returns to the charging station on its own. As soon as the robot has finished charging, it automatically continues cleaning.

Sustainably cleaned

To extend its service life, you can clean ROMY's fine particle filter under running water. You can also replace the battery of our ROMY models at the end of its lifetime – good for your wallet and the environment.

Data privacy

The security of your data is important to us. We store the data we receive securely on our European data server. We only use them to improve our service and our products. We do not pass them on to third parties without being asked.

Everything according to plan

Set fixed days, times, rooms and areas in the app. ROMY cleans autonomously and independently. Different cleaning modes can be assigned to rooms or areas. For example, the robot can automatically reduce the volume when it drives past the children's room.

Climbing ability of 2cm

ROMY overcomes obstacles such as carpet edges or doorsteps up to 2 cm.

Specs

Product Attributes

EAN: 0731034820165

Manufacturer number: ROB-5820-100018-0B

Product weight:	3.5 kilograms
-----------------	---------------

Specifications

Cleaning route:	Systematic
Navigation method:	Laser
Room detection:	true
No-go zones:	true
Capable of storing maps for multiple floors:	true
Scheduling:	true
Max barrier/threshold height:	20
Carpet detection:	true
Drop detection:	true
Brush Width:	168
Mopping function:	true
Sound level:	62-80
Suction:	4000-5200
Vacuum level adjustment:	Manual
Dust capacity:	1100
Cleaning modes, dry:	5
Cleaning modes, wet:	3
Water flow level adjustment:	3 choosable programs
Water tank capacity:	250
Washable filter:	true
Washable water tank:	true
Max working time, vacuuming:	200

Battery

Battery capacity:	5000
Charging time:	4-5
Battery type:	Built-in
